usesmpt.com — Communications Intelligence Report

2026-05-25 · 9 channels analyzed · 6 critical · 18 watch · 15 pass

Run ID: cip-mpl8p709

OVERALL RESULT

Site loads. 6 critical findings identified.

CHANNEL SCORES

COMMS CLARITY 100 5 finding(s)	BUYER DISCOVERABILITY 60 7 finding(s)	CONVERSION PATH 90 2 finding(s)
EMAIL TOUCHPOINTS 85 4 finding(s)	COMMS SURFACE SECURITY 50 5 finding(s)	SOCIAL PRESENCE 90 3 finding(s)
SYNTHETIC COMMS CHECK 85 4 finding(s)	COMMS SURFACES INVENTORY 50 1 finding(s)	IVR AUDIT (SAMPLE) 60 8 finding(s)

CHANNEL FINDINGS

Comms Clarity — 100

SCOPE

Homepage.

FINDINGS

- ✅ Title present.
- ✅ Single H1 detected.
- ✅ All 1 images contain alt text.
- ✅ 4 interactive elements detected.
- ✅ HTML payload 22 KB.
- ✅ Page loaded in 1091 ms.

REQUIRED ACTION

- None.

Buyer Discoverability — 60

SCOPE

Homepage.

FINDINGS

- ❌ Meta description missing.
- ❌ Open Graph image missing.
- ❌ Open Graph title missing.
- ❌ Twitter card missing.
- ❌ Structured data (JSON-LD) missing.
- ❌ robots.txt returns 404.
- ❌ sitemap.xml returns 404.
- ✅ Ten internal links valid.

REQUIRED ACTION

- Add a meta description.
- Add missing Open Graph image.
- Add Twitter card meta tag.
- Add JSON-LD structured data.
- Restore robots.txt.
- Restore sitemap.xml.

Conversion Path — 90

SCOPE

Homepage. No checkout path detected.

FINDINGS

- 🔴 No checkout path detected on homepage.
- 🔴 Trust signals: 3 of 5 present.

REQUIRED ACTION

- Add a discoverable checkout path from the homepage.

Email Touchpoints — 85

SCOPE

Homepage.

FINDINGS

- 🔴 No ESP script detected.
- 🔴 No email capture detected.
- 🟢 One contact email address present.
- 🔴 Privacy and consent indicators missing.

REQUIRED ACTION

- Add ESP integration if email automation is required.
- Add an email signup form.
- Add privacy and consent indicators.

CHANNEL FINDINGS (CONTINUED)

Comms Surface Security — 50

SCOPE

DNS records of usesmpt.com.

FINDINGS

- ❌ No SPF record.
- ❌ No DMARC record.
- ⚠️ No DKIM found at common selectors.
- ❌ No MX records — domain cannot receive mail.
- ✅ TLS reachable on 2 comms surfaces.

REQUIRED ACTION

- Add SPF record.
- Add DMARC record (start at p=none for monitoring).
- Configure DKIM signing on the sending mail server.
- Add MX records.

RECOMMENDED DNS ADDITIONS

TXT `usesmpt.com`

```
v=spf1 include:<your-mail-sender> ~all
```

Adds SPF so receivers can verify authorized senders. Replace <your-mail-sender> with your ESP host (e.g. _spf.google.com, sendgrid.net, spf.protection.outlook.com, _custspf.one.com).

TXT `_dmarc.usesmpt.com`

```
v=DMARC1; p=none; rua=mailto:dmarc@usesmpt.com; fo=1
```

Starts DMARC in monitor mode. Aggregate reports arrive at dmarc@usesmpt.com (create that mailbox first, or use a free aggregator like postmarkapp.com/dmarc). After ~7 days of reports, you will know which IPs send mail under this domain. Then tighten to p=quarantine.

Social Presence — 90

SCOPE

Homepage.

FINDINGS

- ✅ Title captured.
- ✅ Description captured.
- ⚠️ Draft posts generated using fallback templates.
- ⚠️ Open Graph image missing.

REQUIRED ACTION

- Add Open Graph image.

Synthetic Comms Check — 85

SCOPE

Homepage + Checkout.

FINDINGS

- ✅ Rendered in 4231 ms.
- ⚠️ One JavaScript error.
- ⚠️ One failed network request.
- ⚠️ No checkout path discovered in rendered DOM.

REQUIRED ACTION

- Resolve JavaScript errors.
- Fix failed network requests.
- Surface a checkout path from the homepage DOM.

Comms Surfaces Inventory — 50

SCOPE

FINDINGS

- ⚠️ No public comms surfaces detected in CT logs.

REQUIRED ACTION

- None.

IVR Audit (sample) — 60

SCOPE

FINDINGS

- ✅ IVR audit — SAMPLE: BlueComm Communications (sample).
- ✅ Menu depth: 3 levels.
- ⚠️ 1 dead-end node detected.
- ⚠️ 1 terminal hangup node without agent transfer.
- ⚠️ No GDPR / privacy disclosure detected in any prompt.
- ✅ Call-recording disclosure present.
- ✅ Live agent transfer path available.
- ⚠️ Node n0: uses "menu options have changed" — known disengagement trigger.

REQUIRED ACTION

- None.

SUMMARY

Critical findings identified in: Buyer Discoverability, Comms Surface Security, IVR Audit (sample).
Operator review required.

AUDIT TRAIL

Generated by Pam on 2026-05-25 13:26:16 UTC.

Run identifier: cip-mpl8p709.

Findings derived from automated scan.

Operator review recommended before external use.

Communications Intelligence Platform — structured, repeatable checks.
